PROJECTS

Hamro Mart (Ecommerce) [\[Github\]](#) (August, 2024)

ReactJs, Tailwind, React hook form, NodeJs, ExpressJs, MongoDB and Cloudinary

Developed a dynamic e-commerce platform using React.js, Tailwind CSS, and React Hook Form for an intuitive user interface. Built a robust backend with Node.js, Express.js, and MongoDB, integrating Cloudinary for seamless image management. The platform offers a versatile shopping experience, similar to Daraz, with features like product listing, reviews, payment processing, and user authentication.

Moonlight Photography GUI [\[live\]](#) (Jun, 2024)

ReactJS, Tailwind, GSAP, ScrollTrigger, and React Router DOM.

Designed a responsive, user-friendly interface with basic animations using GSAP and ScrollTrigger to enhance user experience. Implemented smooth navigation and interactive elements to deliver seamless access to photography and videography services.
